About Me

I am a fourth-year Management Information Systems student at Boğaziçi University, set to graduate this summer. I've been developing full stack web applications for more than two years.

Education

Management Information Systems

2019-2024

Boğaziçi University

Work Experience

Düğün.com

Frontend Developer Intern

2023 May - 2024 March

- During my internship, I helped improve a company project by fixing bugs and adding new features. I also used the company's API to create a website with registration and other features.
- I used: React.js, Typescript, Material UI. I also had the chance to learn Vue.js and develop a website using it.

Vatansoft

Freelancer Frontend Developer

2022 September - 2022 October

- Developed a complex accounting management system's web application using React.js and Redux (Saga).

Frontend Developer Intern

2022 July- 2022 September

- I gained experience with RESTful APIs, fetching and sending data through forms while providing good user experience.

Buchain

Frontend Developer

2022 February - 2022 April

- Designed & developed the website of Boğaziçi University Blockchain Society.
