HASAN SOLAK

FRONTEND DEVELOPER

Kağıthane/İstanbul | hasan23solak@gmail.com | +90 552 549 0135 | h-solak.github.io

A dedicated frontend developer with more than 3 years of coding experience. I enjoy coding, from simple websites with beautiful UIs to complicated full-stack projects.

PROFESSIONAL EXPERIENCE

Frontend Developer, KOBIL   **April 2024 - Present**
- Collaborated with international teams to design and enhance product features, adapting to dynamic client requirements.
- Developed new features, wrote tests, resolved bugs, and improved legacy code through refactoring.
- Applied Agile and Scrum methodologies.
- Acquired significant experience working in a demanding, fast-paced environment.
- 📌 React.js, Typescript, Redux, React-Query, Material UI, Jest, Jira

Frontend Developer Intern, Düğün.com   **May 2023 - March 2023**
- Contributed to the development of the main project and a side project
- Resolved bugs, improved code.
- I had the opportunity to work closely with my mentor, gaining valuable insights from his expertise.
- 📌 React.js, Vue.js, Typescript, Redux, React-Query, Material UI, Jest, Jira

Frontend Developer Intern, Vatansoft   **July 2022 - October 2022**
- Worked on an accounting management project
- Developed new features, resolved bugs.
- I gained valuable experience collaborating with backend and frontend teams, as well as effectively communicating with key stakeholders, including company managers.
- 📌 React.js, Redux, Redux Saga

EDUCATION

Management Information Systems   **2019 - June 2024**
Boğaziçi University
- I actively participated in Boğaziçi University Blockchain Society (BUCHAIN) for a year. As part of a development team, I contributed to building and maintaining the society's website, gaining valuable hands-on experience in web development and collaboration.
