About Me

I am a senior (4rd year) Management Information Systems student at Boğaziçi University. I have been developing websites for almost two years as a self-taught developer.

Education

Management Information Systems
2019-2024
Boğaziçi University

Work Experience

Düğün.com
Frontend Developer Intern
2023 May - ∞

- During my internship, I helped improve a company project by fixing bugs and adding new features. I also used the company's API to create a website with registration and other features.
- I used: React.js, Typescript, Material UI. I also had to chance to learn Vue.js and develop a website using it.

Vatansoft
Freelancer Frontend Developer
2022 September - 2022 October

- Developed a complex accounting management system's web application using React.js and Redux (Saga).

Frontend Developer Intern
2022 July- 2022 September

- I gained experience with RESTful APIs, fetching and sending data through forms while providing good user experience.

Buchain
Frontend Developer
2022 Februrary - 2022 April

- Designed & developed the website of Boğaziçi University Blockchain Society.
